Staff Reporter :

A significant meeting on 'Vision Development 2047 Bhopal' was held on Thursday at the School of Planning and Architecture (SPA) in Bhouri, chaired by Collector Kaushalendra Vikram Singh. The meeting was attended by Dr Kailasha Rao M, Director of SPA, Prakash Nayak, ADM, Mayank Dubey, Associate Professor at SPA, Brijesh Sharma from PWD, Madhya Pradesh Pollution Control Board, and other relevant officials. During the meeting, Collector Singh emphasised the need for a systematic and effective plan for the development of Bhopal up to the year 2047 .

He instructed the formation of a joint team comprising the district administration, SPA, and other relevant agencies. He highlighted the importance of developing Bhopal as a 'unique city' on the national map by 2047. The Collector directed that the development plan should prioritise well-organised infrastructure, a pollution-free environment, an improved transport system, sustainable development, and environmental conservation. Further, Collector Singh proposed that a comprehensive report be prepared within the next 15 to 20 days after consulting the relevant agencies. Based on this, the city's holistic development should be ensured, keeping in mind future needs.
